Mobile Printing Solution

Print on the go with ease

Use RICOH HotSpot Express to print from your smartphone, tablet or notebook at a moment's notice. Download the software or mobile app quickly and begin printing behind your firewall to any designated network output device. It's easy to use and easy to support, so you won't tax IT resources or your budget.

Flexible print submission

Mobile Apps

Open the mobile app on your iOS or Android device and find the nearest enabled printer.

Email

Simply send an email with attachment to an MFP or printer's email address.

Web Print Portal

Visit the RICOH HotSpot Express Web portal, choose a printer, upload a document and submit it for printing.

Native iOS

Print directly from your iPhone® or iPad® using the iOS print button.

PrintWhere® Driver

Use the traditional File>Print workflow from Windows® applications.

Your business never stops moving. Neither should you. With RICOH® HotSpot Express powered by PrinterOn®, you can print from iOS, Android, Windows and other devices* to virtually any network printer for fast, convenient printing wherever you are, whenever you want. Choose from multiple print submission options to share information when and how it's most convenient for you and your audience.

Every business can benefit from a more mobile workforce. But you don't have to pay top dollar for it. With fast, easily downloaded user installation, RICOH HotSpot Express can be deployed immediately without creating a burden for your IT team. Use the same print workflows you currently use. Take advantage of the same security controls. Ensure your entire workforce is productive even when it's on the move, and manage it all, including the configuration of multiple services and printers, from an intuitive, centralized web interface.

Discover the freedom of affordable mobile printing

Maybe you have a new office location, a new clinic, a new manufacturing plant or dozens of temporary contract workers. Install RICOH HotSpot Express on a network server to set up convenient mobile printing for all of them. You can even isolate these users on a separate network without limiting their productivity. The solution is fast, easy and scalable, and offers the features necessary to quickly add users and get them printing right away. When it's time for a more advanced solution, we have you covered with add-on modules that can expand mobile printing quickly to more locations, networks and mobile device management systems via RICOH HotSpot Enterprise.

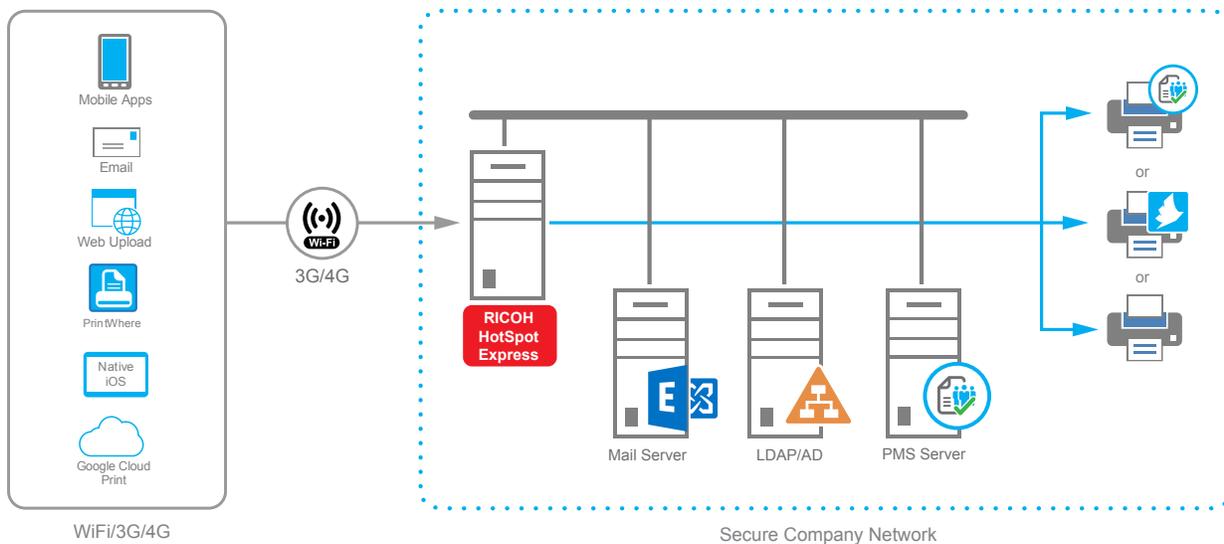

*Users can also print remotely via Blackberry®, Kindle® and Nook® devices.

RICOH HotSpot Express

Use RICOH HotSpot Express for unprecedented printing freedom for organizations with basic mobile printing requirements.

- Designed for multiple users, multiple devices and platforms, multiple printers and multiple networks and locations.
- Configure and deploy from a single web interface.
- “Private Cloud” architecture keeps all jobs behind your firewall and uses your existing network security infrastructure to protect information.
- Leverage user authentication to restrict printing to authorized users. Jobs are held until the worker authenticates at the device.
- Enjoy out-of-the-box integration with popular print management software, including Ricoh Streamline NX® and Nuance® Equitrac®, to track print users and jobs and allocate chargebacks.
- Partner with leading mobile device management (MDM) providers, so you can push the app and configurations to users automatically for faster setup, printer discovery and printing.
- Take advantage of a free 30-day trial to see how affordable and productive mobile printing can be.

RICOH HotSpot Express Workflow

Print at your convenience, wherever you are, by adding RICOH HotSpot Express to your existing, on-premise infrastructure. Integrate it with LDAP or other directory services, mobile device management solutions and print management systems for fast, easy and affordable mobile printing for everyone, everywhere.

Specifications

Hardware Requirements

- Dedicated physical server or virtual machine
- Intel-compatible processor with 2GHz multi-core processor
- 2GB RAM minimum (4GB recommended)
- 2GB of free disk space for HotSpot (PrinterOn) software and third-party applications
- Windows Server 2008 or 2012 (32-bit or 64-bit) with current patches installed

Software Requirements

- Microsoft Office 2007 or later (recommended) including Word, Excel, PowerPoint and Visio
- OpenOffice or LibreOffice (optional)
- Apache Tomcat (included with installation)
- Java (included with installation)

Supported Devices

HotSpot supports most Ricoh PCL or PostScript printers/MFPs. For printers that are not PCL or PS compatible, a PDF conversion module is utilized to render data most printers support.

Supported File Formats

- Microsoft Excel, Word, PowerPoint, Visio (97-2013)
- OpenOffice
- Adobe PDF
- Image files (JPEG, BMP, GIF, TIFF, PNG, PICT)
- Web pages (HTML, HTM)
