

DocuWare for employee file management

**Digitize employee records to increase confidence,
engagement and efficiency in your process.**

Successful employee onboarding and retention is highly rewarding. But a siloed, paper-based system opens opportunities for critical processes to fail. Overlapping or missing paperwork, disconnected decision-makers and mishandled sensitive information lead to increased timelines, reduced compliance and attrition. Digitize and unify your employee files with a cloud-based, secured electronic document management process that will realize faster and safer hiring, and a boost in employee engagement.

Better processes start with the experience of Ricoh, powered by DocuWare.
